FROM PLASTIC TO PLUSH

Multipet International, Inc. is dedicated to sustainability and the preservation of the environment. We understand that Earth's natural resources won't last forever, which is why we consistently look for new ways to create meaningful and sustainable change. By manufacturing products using recycled material, we make sure that the future remains the pet-friendly playground it's supposed to be.

Our sustainable promise begins with plastic water bottles. Each water bottle is crushed and processed into small plastic pellets.

These recycled pellets are then turned into a soft, thread-like material that creates the toy fabric and its stuffing.

We combine these new materials and sew them together to create some of our favorite toys!

MARGARITAVILLE®

It's 5 O'Clock Somewhere...

It's in the tropics somewhere between the Port of Indecision and Southwest of Disorder, but no parallels of latitude or longitude mark the spot exactly. You don't have to be a navigator to get there. Palm trees provide the camouflage, ocean breezes bring the seaplanes and sailboats, tourists and travelers. Passports are not required. Island music rules. No waiting lines for anything.

There is a beach and a thatched roof bar perched on the edge of the turquoise sea where you can always find a bar stool. There are lots of lies and loads of stories. It's a comical concoction that blends together like tequila, salt, and lime.

DOG TOYS

Julius

Julius the Monkey is a lovable creature, filled with curiosity and wonder with a charisma that appoints him the natural leader. He doesn't need to call up his friends to have them join him on his adventures – they just find him and join on the fun. They love being around him because he's always doing something new. Julius has some of the responsibilities of an adult but at the same time he has the liberties of a young person. His actual age is undefined, but it's understood that he's like a child with adult means. He struggles to find his place between the childhood he's always known and the responsibility he now has.
