FROM PLASTIC TO PLUSH

Multipet International, Inc. is dedicated to sustainability and the preservation of the environment. We understand that Earth's natural resources won't last forever, which is why we consistently look for new ways to create meaningful and sustainable change. By manufacturing products using recycled material, we make sure that the future remains the pet-friendly playground it's supposed to be.

Our sustainable promise begins with plastic water bottles. Each water bottle is crushed and processed into small plastic pellets.

These recycled pellets are then turned into a soft, thread-like material that creates the toy fabric and its stuffing.

We combine these new materials and sew them together to create some of our favorite toys!

CLIP-ON BALL™ - THE HANDS-FREE AND CONVENIENT WAY TO CARRY YOUR FETCH BALL!

51515 - ASSORTED COLORS 2.5"

HOW TO USE CLIP-ON BALL™

1. Using one hand, apply a pinching grip to one side of the ball to open the teeth on the opposite side.

2. When one set of teeth is fully open, insert a taut section of the pet's leash.

3. Release the pinching action and gently wiggle the leash, testing to confirm that your Clip-On Ball™ is properly secured.

Our Clip-On Ball™ allows for convenient, easy access to a pet's fetch ball(s). Attach one or more to a leash, simply by pinching the Clip-On Ball™, and inserting it onto a taut portion of the leash. The twin teeth supply the clamping force to secure the ball to a majority of dog leashes on the market, and is designed for both large and small breeds.
