# FROM PLASTIC TO PLUSH

Multipet International, Inc. is dedicated to sustainability and the preservation of the environment. We understand that Earth's natural resources won't last forever, which is why we consistently look for new ways to create meaningful and sustainable change. By manufacturing products using recycled material, we make sure that the future remains the pet-friendly playground it's supposed to be.

Our sustainable promise begins with plastic water bottles. Each water bottle is crushed and processed into small plastic pellets.

These recycled pellets are then turned into a soft, thread-like material that creates the toy fabric and its stuffing.

We combine these new materials and sew them together to create some of our favorite toys!
